

Restored Leadership Part 1

Titus 1:5-9

- (1) The local church is to be led by a group of men who are _____ to oversee and lead God's people to be and do what God has restored the church to be and do! – (1:5, 7a, & 9)
- (2) The local church is to be led by a group of men who are publicly known as those who have the _____ to lead the church by example to be and do what God has restored it to be and do! (1:6-8)

Challenge:

- (1) Titus 1:5-9 describes the character God requires of the men who will lead the local church, which suggests it's how He wants every individual in the church to be known! Does your _____ with family, friends, peers at work, etc. match the character God is restoring in us as his Gospel sets us free from sin?
- (2) If God places these type of qualifications and expectations on those who lead the local church then it underscores how high a priority the local church is for God! How much do you prioritize life in the local church? Does your commitment match up with what God has designed the _____ to be and do?
