- (3) There is no _____ interpretation of the details of the vision. However, the two most common conclusions throughout church history are that it points to the destruction of city of Jerusalem and Temple by the Romans in 70 AD as a symbol of the end of the Old Covenant. It is also a very common conclusion that it points to a terrible tribulation before the 2nd coming of Christ. Either way, what is universally accepted by all is that in the end Christ and the New Covenant are the point of verse 24 and thus the point of whatever takes place in verses 25-27. (9:25-27)
